SELECTED UI/UX PROJECTS

ArtBound | *Art Workshop Discovery & Booking Platform*

- Conducted survey research with 18 participants to identify pain points across workshop discovery, evaluation, and booking.
- Found that booking information was a key consideration for 50% of respondents, informing clearer workshop details and comparison-focused flows.
- Designed user flows, information architecture, wireframes, and a high-fidelity mobile experience for learners and artists.

Hubly | *AI-Assisted SaaS Dashboard | Freelancer Business Hub*

- Used an AI-assisted design workflow to explore product structure and initial interface concepts for a freelancer-focused SaaS experience.
- Refined the generated concepts in Figma through layout, visual hierarchy, components, and interface design decisions.
- Designed a dashboard experience focused on organizing freelancer business activities.

BookMyShow Redesign | *Mobile Ticket Booking Experience*

- Analyzed the existing mobile booking experience and identified opportunities to improve discovery and decision-making.
- Redesigned key mobile screens with improved navigation, filtering, and content hierarchy.
- Created high-fidelity UI and an interactive prototype in Figma.
